

MYTH: Crop insurance is only for big corn, soybean, wheat and cotton farmers.

FACT: Crop insurance is available for more than 125 crops and to farmers of all sizes and in all 50 states.

The number of acres of fruit, vegetables, and other specialty crops covered by crop insurance increased from 7.7 million acres in 2009 to about 10 million acres in 2020. That's an increase of 30% in just eleven years.

- Many specialty crops are insured at rates similar to row crops such as corn, soybeans, wheat, and cotton. For example, 70% of apple and 71% of almond acres are insured, as well as 77% of cranberries.*
